Grant of licences to steam vessels.—(a) The application for original licence of a steam vessel shall be made by the owner to the Executive Engineer of the division concerned at least six

weeks before the licence is required. In making such application the owner shall give the name and address of the person to whom notice of inspection of the vessel should be given.

(*b*) The inspection of the hull and the machinery of the steam vessel shall be made by the Executive Engineer or any person deputed by him within ten days of the receipt of the application.

(*c*) As soon as possible after such inspection the Executive Engineer shall, if the hull and the machinery be in good condition, give notice to the Chief Inspector of Steam Boilers and Prime Movers, Madras, stating the name of vessel and its owner, the place where it should be inspected and the name and address of the person to whom the notice of inspection should be given.

(*d*) On receipt of such notice, the inspector shall arrange to fix a date for inspection which shall be within thirty days of its receipt and shall give the owner or the person named by him fourteen days' notice of his intention to inspect, stating what preparations should be made for his inspection.

(*e*) If, on such inspection, the inspector is satisfied that the boiler is in good condition, he shall issue to the Executive Engineer the usual boiler certificate to that effect, specifying the maximum pressure at which the boiler may be worked and the period for which such certificate shall be in force.

(*f*) On receipt of the Boiler Inspector's certificate, the Executive Engineer or any officer empowered by him shall grant a certificate of inspection in Form G attached to these rules and also a licence either in Form A or K attached to these rules as the owner of the vessel or his agent may elect provided the Executive Engineer or the officer empowered by him is satisfied that the vessel is in charge of a competent crew.

(*g*) All licences shall expire at the end of the period for which the certificate in Form G is granted. If the owner wishes to ply his steam vessel beyond the period covered by such certificate, he shall give notice of his intention to do so to the Executive Engineer at least six weeks before the date of the expiry of such certificate.

(*h*) In the event of none of the Inspectors of Steam Boilers being able to inspect the vessel before the date of the expiry of the certificate, provided the six weeks' notice has been given, the Chief Inspector of Steam Boilers, Madras, shall intimate to the Executive Engineer that no inspector is available and the Executive Engineer will endorse the current certificate in Form G extending it until such time as arrangements can be made for the inspection of the boiler. The period of such extension shall not exceed two months.

7. Notwithstanding anything contained in rule 5, the following special provisions shall apply in regard to the inspection,

survey and licensing of all steamers and motor vessels plying in the Godavari river in the Presidency of Madras or in the branches of that river below the anicuts at Dowlaishweram:—

(i) Only annual licences shall be granted.

(ii) The initial inspection and survey of all vessels of over 10 tons shall be made by the Chief Inspector of Steam Boilers and that of vessels of 10 tons and under shall, save as provided in clause (iv), be made by the Executive Engineer, Godavari Headworks division.

(iii) The annual inspection of the hull and machinery and licences of tonnage, etc., of all vessels shall be made by the Executive Engineer, Godavari Headworks division.

(iv) The initial inspection of boilers and steam pipes of all vessels shall be made by the Chief Inspector of Steam Boilers and the annual inspection thereof shall be made by the Inspector of Steam Boilers, Waltair Circle.

(v) In the case of initial inspection of vessels of 10 tons and under, the hull and machinery shall be examined by the Executive Engineer, within two weeks of the receipt of application for licence. The owner shall bring the vessel on such date and to such place as may be fixed by the Executive Engineer and shall make such preparations for the examination as the Executive Engineer may direct. The procedure laid down in clauses (c) to (e) of rule 6 shall then be followed.

On receipt of the Boiler Inspector's certificate the Executive Engineer shall, if he is satisfied that the vessel is in charge of a competent crew as laid down in rules 40 and 41, issue a survey certificate in Form M, a certificate of inspection in Form G and a licence in Form A.

(vi) In the case of initial inspection of vessels of over 10 tons, the Executive Engineer shall forward the application for licence to the Chief Inspector of Steam Boilers.

Within thirty days of the receipt of such application by him, the Chief Inspector shall survey the vessel. The owner shall bring the vessel on such date and to such place as may be fixed by the Chief Inspector and shall make such preparations for the survey as the Chief Inspector may direct. The owner shall be given at least 14 days notice of such survey.

If, after such survey, the Chief Inspector of Steam Boilers is satisfied that the vessel is in all respects fit for service, he shall send a survey certificate in Form M to the Executive Engineer for issue. The

Executive Engineer shall then, if he is satisfied that the vessel is in charge of a competent crew as laid down in rules 40 and 41, issue such certificate, a certificate of inspection in Form C and a licence in Form A.

(vii.) The provisions of clause (v) shall, so far as may be, apply to the annual inspection, as provided in clauses (iii) and (iv), of the hull and machinery of all vessels by the Executive Engineer and of the boilers and steam-pipes thereof by the Inspector of Steam Boilers, Waltair Circle.

8. *Counterpart of licences.*—Every canal officer empowered to grant licences shall retain the counterpart of every licence granted by him and shall be responsible that it corresponds to the licence of which it is a counterpart. When an alteration is made in the licence, a corresponding alteration shall be made in the counterpart thereof.

9. *Transfer of licence for one year.*—If the ownership of a vessel licensed for one year is changed during the year for which the vessel is licensed the officer who granted the licence may, upon the application of the original owner and the transferee, alter the licence by substituting the name of the latter for that of the former. But a licence granted for one vessel shall not be transferred to another vessel.

10. *Licences for one year.*—Every licence for one year shall remain in force until the 30th April following the date of issue, unless it is cancelled or suspended as hereinafter provided.

11. *Renewal of six weeks' licences.*—A licence granted for six weeks may be renewed from time to time for further periods of six weeks by the issue of a new licence on each occasion on production of the previous licence or in the event of its loss a duplicate thereof.

12. *Conversion of a six weeks' licence.*—A licence granted for six weeks may be converted at any time into a licence for the year in which it was issued, upon receipt of the fee payable for a licence for the year less the whole of the fee paid for the first six weeks' licence and half the fee paid for the second or any subsequent six weeks' licence.

13. *Gross tonnage.*—The gross tonnage of a vessel shall be ascertained by multiplying its length, breadth and depth in feet and inches and dividing the product by fifty. The length shall be measured at half the midship depth in a straight line from the inside of the outerplanking at the side of the stem to the inside of the outerplanking at the side of the stern post and shall be hereinafter called the length for tonnage. The breadth for tonnage shall be one-sixth of the sum of five widths taken at equal distances along and right angles to the above length for tonnage measured from the rib on one side to the planking on the other

side. If the vessel has a fixed internal planking or "ceiling," the said five widths shall be measured from the inner side of such ceiling on one side to the inner side thereof on the other side.

The depth of all vessels shall be measured in a vertical line at the centre of the length for tonnage. If a vessel is decked the measurement for depth shall be from the under side of the deck planking or in case of a break, below a line stretched in continuation of such deck planking. If the vessel is an open one or a "Rajahori" transit boat the measurement for depth shall be from an athwartship line extended from the upper edge of the upper strake on both sides of the vessel. If the vessel has a fixed ceiling (inner planking) the measurement for depth shall be to the inner side of such ceiling. If a vessel has no fixed ceiling the measurement for depth shall be to the inner side of the outer bottom plank.

14. *What to be deemed the tonnage of a vessel.*—Whenever the tonnage of any vessel has been ascertained, the same shall henceforth be deemed to be the tonnage thereof, unless any alteration is made in the form or capacity of such vessel or unless it is discovered that the tonnage thereof has been erroneously computed; and in either of such cases, such vessel shall be remeasured and her tonnage determined according to the rule hereinbefore contained in that behalf.

15. *Registered tonnage.*—The net or registered tonnage upon which fees are leviable shall be the gross tonnage less one-third for steamers and less fifteen per cent for other vessels. Any fraction of a ton above half shall be taken as one ton and other fractions shall be rejected.

16 *Enlarged or altered vessels.*—A vessel that has been enlarged or so structurally altered as to affect the conditions upon which the licence was obtained shall not ply until it has been remeasured and a fresh licence has been obtained. Such remeasurement and application for a new licence shall be made at the annual licensing station at which the original licence was obtained. The applicant for such fresh licence shall deliver up the old licence to the licensing officer, and pay the difference between the fee paid by him and the fee leviable upon the new registered tonnage.

17. In the Godavari and the Kistna canals all vessels licensed to carry passengers shall observe the following regulations:—

(a) There shall be a flooring in the general cabin at least 4 inches above the hull planking and such flooring shall be kept clean and dry.

(b) For each journey there shall be put up a notice board in a prominent place in the vessel showing the destination of the vessel.

(c) A tariff of fares shall be exhibited in a prominent place in the vessel.

(*d*) Vessels shall proceed to their advertised destination with all reasonable speed and without making prolonged halts.

(*e*) All canal officers, all officers of the Police Department of and above the rank of a Sub-Inspector and all officers of the Revenue Department of and above the rank of a Revenue Inspector may inspect any vessel licensed to carry passengers to see whether the owner or master of the vessel has complied with the above rules and report to the licensing authority any irregularity of which they consider notice should be taken. The licensing officer shall, thereupon, if he thinks fit, take action under rule 51.

18. *Number of passengers licensed to carry.*—No vessel licensed to carry passengers shall carry a greater number of passengers than is the proportion of one adult or two children for every 7½ square feet of covered space, which shall be calculated by multiplying the length in feet over all covered space, by the mean of the three widths taken at equal distances. The Executive Engineer of the division, or any other Canal officer duly authorized by him, may, during festivals, on application by the owner of any vessel or his agent, increase temporarily the limit of the number of passengers to be carried, so long as the safety of the public is not endangered thereby.

19. *Licences for passenger boats.*—The holder of a licence for a passenger boat shall carry all passengers without distinction of caste.

20. *Provision in case of loss of licence.*—If the original licence be lost, a duplicate shall be issued by the officer who granted the licence on payment of the fee prescribed in the notification published under section 6 of the Act. If the loss occurred during the absence of the vessel from the station at which it was licensed, the loss shall be reported to the nearest Canal officer who shall thereupon issue a pass in Form B attached to these rules. Such pass should hold good until the arrival of the vessel at the station at which the licence was issued. Immediately upon such arrival, the owner or his agent shall deliver up the said pass and pay the prescribed fee for a duplicate licence.

21. *Rafts.*—The owners or persons in charge of rafts using any of the canals shall pay the fees prescribed in the notification published under section 6 of the Act and take out licences in Form C attached to these rules, and these licences shall be in force for six weeks from the date of issue.

III.—Registration.

22. *Registration of vessels.*—Vessels intended for the personal use of the owners and not employed in carrying goods, animals or passengers for purposes of trade nor used for towing vessels carrying goods, animals or passengers for purposes of trade shall

be registered. Certificates of registration shall, on payment of the fees prescribed in the notification published under section 6 of the Act, be issued in Form D attached to these rules and shall be for a period of either one year or six weeks as the owner of the vessel may elect. The procedure described in rule 6 in regard to the *licensing* of *steam* vessels shall be followed in the case of the *registration* of such vessels. The certificates shall entitle the holders to use the lines of navigation therein mentioned and no other. The Executive Engineer of the division in which the port of registry of any vessel is situated, or any Canal officer duly authorized by him in that behalf, shall determine to which class of boats hereinbefore mentioned such vessel belongs. Vessels registered under this rule shall be subject to the same rules and regulations as those for which licences are taken out so far as they are applicable.

23. *Place of registration.*—A vessel may be registered at any one of the licensing stations. The station at which a vessel is registered shall be its port of registry or the port to which she belongs.

24. *Registering officer and register.*—The Executive Engineer of the division in which the port of registry of a vessel is situate or any Canal officer duly authorized by him in that behalf shall be responsible that the certificate of registration and its counterpart are duly filled in and that the counterpart is carefully preserved and altered when required so as to correspond to the certificate to which it refers.

25. *Transfer of ownership and register.*—When the ownership of a vessel registered for one year is transferred during such period, the registration and certificate shall be altered at the request of the original owner and the transferee, by the substitution of the name of the latter for that of the former.

26. *Procedure when certificate is lost.*—If a certificate of registration is lost, the registering officer at the port of registry shall grant a duplicate of such certificate upon the receipt of the fees prescribed in the notification published under section 6 of the Act.

27. *Exemption from payment of fees for registration.*—No fee shall be levied for the registration of boats used solely for fishing on the Buckingham canal: nor on sea-going boats and boats carrying firewood on the Masulipatam canal, in the Kistna delta between the Tidal lock and the Petta basin; but all such boats shall be registered and certificates of registration in Form E attached to these rules shall be issued for them. Vessels belonging to a District Board or Port authority proceeding to their destination and not plying for traffic shall be allowed to pass through the canals free of charge on written permit from the Executive Engineer. All Government vessels shall be registered

and certificates of registration in Form E attached to the revised Navigation Rules issued for them. The registration numbers shall also be painted on the vessels.

IV.—Wharves.

23. *Wharves.*—A wharfage fee at the rate prescribed in the notification published under section 6 of the Act shall be paid by the owner of every vessel which makes any use whatsoever of the wharves fixed under section 6 of the Act except as provided in rule 32. The word "cargo" shall include empty bags, baskets, boxes, casks and other receptacles in which cargo is usually carried. In the case of private vessels intended for the personal use of the owners wharfage fees shall only be charged if the vessels make use of the wharf proper.

The wharf rules shall not apply to salt factories and salt channels already under the control of the Salt Department except the landing place at the salt depot at Madras. No private wharves or landing stages shall in future be constructed in connexion with lines of navigation without the previous sanction of Government.

29. *Wharf limits.*—No vessel shall load or unload on any part of a canal or channel within one mile on either side of a wharf, except by special permission in writing of the officer in charge of the division and on payment of the prescribed wharfage fees. This limit shall be defined by notice boards. In all cases where stone, bricks, tiles, kunc, surki, sand or gravel are landed at, or shipped from, a plot let to a local board or municipality within technical wharf limits, no wharfage fees will be levied, provided there is no actual use of the wharf or of its approach roads maintained from canal funds. This concession will apply only to the Godavari and Kistna canals. In Masulipatam town, the Chintaguntopalem wharf limits shall be taken to extend to one mile on either side along the Masulipatam canal and also to the Basin channel, excluding the Boat basin. In Madras town the wharf limits shall be taken to be the municipal boundary on the north and Adyar south lock on the south and shall include the whole of the Cooum river up to Harris Bridge. Within these limits no vessel shall load or unload at any places other than those described as landing places in the local wharf rules for the regulation of traffic published under rule 31 except with the permission of the Canal officer and payment of fees as aforesaid. Goods shall not be stacked on any tow path or on the canal side of any tow path under any circumstance nor shall they be stacked on canal lands without special permission in writing from the Canal officer.

30. *Wharves which may be declared hereafter.*—Wharfage fees at the above rates shall also be levied at any wharf, which may hereafter be constructed, from the date on which it may be declared, by notification in the *Fort St. George Gazette* and in the Gazette of the district concerned, to be available for loading and unloading cargo and shipping and landing passengers.

31. *Regulation of traffic at wharves.*—The regulation of traffic at wharves shall be according to the rules framed on that behalf and approved by Government. Such rules shall be fixed to a notice-board in a conspicuous place at the wharf and any infringement thereof shall be punished by suspension of the licence of the vessel contravening the rule or rules for a period not exceeding three months.

32. *Wharf tickets.*—Every person in charge of a vessel on which a wharfage fee is leviable shall, before making use of any of the wharves declared under section 3 of the Act, obtain from the wharf superintendent a wharf ticket in Form F attached to these rules. This ticket will permit the holder to make use of any of the wharves for a period not exceeding seven days from the date of issue counting from the previous midnight. In Madras town wharf tickets will be issued by the Superintendent of Madras Basin to vessels coming from the north and by the Superintendent of the Ashtur south lock to vessels coming from the south. On the expiry of the ticket, the vessel must either (*a*) leave the wharf limits, (*b*) take out a fresh ticket or (*c*) pay demurrage as provided in rule 33. In Madras town within the limits described in rule 29 empty vessels may also be permitted to lie up for a certain period and at a certain place, or to pass through the limits of the Madras town wharf, without payment of wharfage or demurrage fees on the issue of a special permit in Form J signed by a Canal officer, provided that, during the period covered by the permit, the vessel does not load or unload goods nor ship or land passengers.

33. *Demurrage fee on vessels.*—If during the time that a vessel lies at any wharf, the currency of its wharf ticket should expire, it shall be optional for the owner of any vessel remaining at such wharf, to pay a demurrage fee at the rate prescribed in the notification published under section 6 of the Act, instead of taking out a fresh wharf ticket. Provided that no demurrage fee shall be charged for any days during which a vessel is not allowed to lie at the wharf.

34. *Demurrage fee on goods.*—Goods deposited for export at a wharf shall be removed, in case the goods are deposited in the covered portion of the wharf, within 48 hours from the time of deposit, and in case the goods are deposited in the uncovered portion of the wharf, within seven days from the date of deposit. Goods landed at a wharf shall in all cases be removed within 48 hours from the time of landing. If the said goods be not removed within such time, the consignor or the consignee, as the case may be, shall pay a demurrage fee at the rate prescribed in the notification published under section 6 of the Act. The said goods shall not be removed until the said fee is paid.

35. *Additional wharfage fee for test-weighing or test-measurement.*—Consignees of goods using the places reserved at wharves for test-measuring or test-weighing goods shall pay the additional

wharfage fee prescribed for the purpose in the notification published under section 6 of the Act, and shall not allow the goods to remain at the reserved places longer than necessary for taking such test-measurement or test-weight.

V.—Navigation Rules.

36. *Dimensions of vessels and rafts.*—No vessel exceeding 90 feet in length and 13 feet in width shall navigate the canals, except those built before the 31st December 1880 for which a special licence may be granted by the Canal officer.

No raft exceeding 90 feet in length, 12 feet in breadth, or drawing more than 2 feet of water, shall be allowed on any of the canals except in the Bamagudem canal where the maximum breadth shall be 20 feet. Nothing shall be allowed to project beyond the side of any vessel or raft. No vessel drawing more than 3 feet of water shall be allowed to ply in the Bamagudem canal.

37. *Free board.*—No vessel carrying cargo shall be navigated in the canals unless it has a free board of at least 9 inches; and no vessel carrying passengers shall be so navigated unless it has a free board of at least 12 inches. The free board shall be measured from the water's edge to the top of the gunwale when the vessel has no deck and to the upper side of the plank of the deck when the vessel has a deck. All vessels using the Buckingham canal shall be so loaded that they can navigate in a depth of water of three feet in the northern portion (i.e., the section of the canal to the north of the Cooum river in Madras) and in a depth of two feet in the southern portion of the canal.

38. *Passenger boats may carry cargo on certain conditions.*—A boat licensed to carry passengers may also carry cargo, every 10 cubic feet of cargo being considered as equivalent to one passenger; but the total of the number of passengers so calculated and the passengers actually carried shall not exceed the number of passengers which the boat is licensed to carry. If *no passengers* are carried, a boat licensed to carry passengers may carry cargo, subject only to the limit of free board of 9 inches provided for in rule 37.

No such vessel shall carry passengers or cargo on the roof or side of the vessel, nor any cargo, such as fish, manure, bones, skins or other articles which in the opinion of the Canal officer is offensive or dangerous.

39. *Care and management of vessels.*—No vessel shall be navigated without one person at least, on board, competent to steer

and manage her and acquainted with the rules regulating the navigation of the canals. No vessel shall lie or be left without a person on board capable of taking care of her. Every steamer or motor vessel plying in the Godavari river and its branches shall carry one life belt or buoy for every ten passengers (including the crew) or fraction of ten.

40. Every licensed steamer or motor vessel plying in the Godavari river and its branches shall have at least one syrang, one driver and two lascars.

41. Every engine driver employed on a licensed steamer or motor vessel plying in the Godavari river or its branches shall hold—

(ii) a Board of Trade certificate; or

(iii) a competency certificate from Bengal or Bombay.

42. *Lights.*—Vessels using any of the canals shall between sunset and sunrise exhibit the following lights:—

Vessels	When moving	When moored
Steamers or motor vessels	One clear white light on the upper deck. One bull's eye bright red light 8 inches diameter on the port or left side One bull's eye bright green light 8 inches diameter on the star board or right side	One clear white light at not less than 4 feet above the water level and so placed that it shall be visible fore and aft.
All vessels not propelled by steam or internally fitted motors.	One clear white light at the fore end fixed not less than 4 feet above the water level. One clear white light in the general cabin or inside.	One clear white light at not less than 4 feet above the water level and so placed that it shall be visible fore and aft.
Rafts or Ballacuts.	One clear white light at each end.	One clear white light at each outer corner.

The two bull's eye lights shall be so placed and filled that both may be visible only from a point directly ahead of the vessel and

so as not to be obscured by any of the fittings, cargo or passengers. Subject to these provisions, the lights may be placed in the front or on the top of the cabin, at the sides of the vessel near the bow or on supports specially provided for the purpose.

43. *Speed of steamers and motor vessels.*—Except while plying in the Godavari river and its branches no steamer or motor vessel shall travel between sunrise and sunset at a greater speed than four miles per hour and between sunset and sunrise at a greater speed than three miles per hour. Steamers and motor vessels shall reduce their speed to 3 miles an hour when they come within half a mile of a lock and shall then whistle or hoot to give notice of their approach to the lock establishment. Steamers and motor vessels shall be warped or poled into and out of locks and shall not use their propellers or paddle wheels until quite clear of the locks. Every steamer or motor vessel shall be furnished with an efficient whistle or hooter. Steamers and other vessels shall reduce their speed to 3 miles an hour during the day and to 2 miles an hour between sunset and sunrise when passing round a bend in any canal and shall whistle when approaching such bend. Every vessel under steam and every motor vessel shall stop and reverse whenever necessary. Steamers and motor vessels shall whistle or hoot when within 100 yards of any boat and reduce speed to 3 miles an hour. This rule applies also to boats fitted with detachable external motors. In the Dumagudam canal, however, no steamer or motor vessel shall travel at a greater speed than 3 miles per hour.

44. *The passing of vessels.*—When two vessels meet on the Godavari or Kistna canals the vessel going with the current shall keep out of the way of the other vessel. In other canals, vessels going north shall keep out of the way of those going south. Vessels under sail shall keep out of the way of vessels which are being towed, and vessels under steam or being propelled by motors shall keep out of the way of all other vessels.

Every vessel overtaking another vessel shall keep out of the way of the vessel which is being overtaken. Where by these rules one of two vessels is required to keep out of the way, the other shall keep her course. Every vessel under steam or being propelled by a motor when passing a vessel, which is being towed from the towing path, shall pass on the offside thereof and every vessel not under steam or not being propelled by a motor, shall take the towing path side when meeting, or passing, or approaching to, or being overtaken by, a vessel under steam or being propelled by a motor. The steam whistle of every vessel under steam or hooter in the case of a boat being propelled by a motor shall be sounded when such vessel is about to round and is rounding any turnings in the navigation as well as when such vessel is meeting, approaching, or overtaking any vessel.

45. *Sails when to be lowered.*—All vessels under sail shall lower their sails when passing through a masonry aqueduct, lock or flooded-gate.

46. *Inspection of vessels other than steamers.*—The Canal officer in charge of a licensing station shall, from time to time, inspect all licensed vessels at such station to see if they are maintained in a proper state of repair and cleanliness and if their gear is in good condition, and may suspend the licences if the vessels are out of repair or unsafe or otherwise unfit for public use or for the carriage of goods as the case may be. So long as a licence is suspended, the vessel to which it relates shall not ply on any of the canals.

47. *Inspection of motor vessels.*—All motor vessels shall be inspected by the Canal officer before they are licensed and once every year thereafter to see that they and their machinery are in good working order and that they are in charge of a competent crew. Certificate of inspection shall be issued in Form G appended to these rules. In the event of such deterioration of the machinery as may in the opinion of the inspection officer cause danger, the licence of the vessel shall be cancelled or suspended.

NOTE.—This rule is not applicable to boats fitted with detachable external motors.

48. No steamer or motor vessel plying in the Godavari river and its branches shall tow any vessel unless certificates of inspection in Form G permits it to do so.

49. *Production of licence and stoppage of vessels.*—When required so to do by a Canal officer, every person in charge of a vessel shall stop the vessel and produce the licence or certificate of registration as the case may be. Persons in charge of vessels carrying passengers or cargo or both and of vessels propelled by steam, shall assist Canal officers in their inspections and shall make a true statement of the number of passengers and the nature of the cargo on board.

50. *Temporary suspension of traffic.*—A Canal officer of not lower rank than an Executive Engineer may, for purposes of Government work, temporarily suspend navigation between any two points in a canal, necessary warning being given at the nearest traffic registering stations above and below.

51. *Limit of Canal officer's powers.*—A Canal officer may, on account of the infringement of any provision of the Act or any of the rules and regulations passed under it, suspend the licence of a vessel for not more than—

fifteen days for a first offence,
thirty days for a second offence in the same year,
sixty days for a third offence in the same year,
one hundred and twenty days for a fourth and every subsequent offence in the same year.

Any suspension of a six weeks' licence which is renewed under rule 11 or converted into an annual licence under rule 12, shall be recorded on the licences issued under those rules and will be treated as previous offences under this rule. In the event of the period

of suspension being in excess of the unexpired portion of a licence, no renewal of the licence shall be made nor shall a fresh licence be granted under the rules until such period of suspension has expired. The published period of closure of the canal in which the lock or wharf specified in Form II, granted under rule 52, is situated shall not count as part of the period of suspension.

52. *Pass for vessels under suspension to proceed to their destination.*—When the licence for a vessel carrying cargo or passengers or both is suspended, the officer by whom the licence is suspended shall grant a pass in Form II attached to these rules permitting the vessel to proceed to its destination for the purpose of landing cargo and passengers or to a place where it can be repaired. Such passes shall be in duplicate of which one part shall be retained in the issuing office and the other part shall be delivered to the person in charge of the vessel. The fact and period of suspension shall be recorded by the Canal officer upon the licence and upon the counterpart, but if the counterpart is not in his possession, he shall communicate the fact of suspension to the officer who issued the licence. In the case of the suspension of a licence because of the defective state of a vessel's hull, machinery or gear, the suspension shall continue until the owner obtains a certificate from an inspecting officer that the necessary repairs have been effected and that the vessel is again safe, sound and fit for the navigation of the canals. Such certificate shall be endorsed on the licence immediately under the order of suspension which shall thereupon cease to have any effect. The order of suspension shall declare that it shall be in force unless and until such certificate is obtained. A copy of such certificate shall be served upon, and be filed by, the officer who suspended the licence.

53. *Punishment of owners of rafts.*—Owners of rafts shall in lieu of suspension, be punished by a fine of two rupees for each offence, until payment of which the raft shall not proceed. If the fine is not paid within ten days, the Canal officer concerned is empowered to cause the raft to be removed from the canal.

54. *Marks and figures to be painted on vessels.*—The owners of vessels other than rafts shall have the following figures and marks painted conspicuously on their vessels before using them on any of the canals and shall be responsible that these marks and figures are not defaced or obliterated:—

(1) The number of the boat as borne on the register of boats of the registering station and the initial or initials of the canal to which that registering station is attached shall be painted on each bow.

(2) The tonnage of the vessel shall be similarly painted on each side of the sternpost above the load line.

(3) The number of passengers, which the vessel is licensed to carry, on the stern of each such vessel or on the after-part of the cabin with the letter P prefixed.

(4) The load line for a length of 3 feet amidships, on both sides.

(5) Gauges in feet and tenths, with figures indicating feet and half feet, shall be painted on both ends of vessels to enable their actual draft to be readily ascertained at any time.

The said numerals and letters shall be in English and shall be painted in white on a black ground or black on a white ground. Each numeral or letter shall be not less than 4 inches in length and of proportionate breadth.

Clauses (1), (2) and (5) of this rule will apply to all private vessels intended for the personal use of the owners.

55. *Circulation of rules.*—A copy of the navigation rules and regulations in English or in the vernacular shall, at the time of registration or taking out a licence for every vessel other than a raft, be given to the owner or person in charge thereof, if he has not already got one, and his signature taken in the register of licences in token that he has received, or has already in his possession, a copy of the navigation rules and regulations.

In cases where the vessel is carrying passengers or perishable cargo, a permit will be issued for the vessel to proceed to its destination.

59. *Place and time of repairs of vessels.*—No vessel shall be repaired in any canal without the written permission of the Canal officer. The repairs shall be made at the place and during the time named in the written permission, and at no other place or time. The owner of the vessel shall remove from the canal all surplus materials used for such repairs within fifteen days after the repairs are completed. In the event of his failing to do so, such materials shall be removed by the Canal officer at the expense of the owner of the vessel and the licence may be suspended until payment is made.

60. *Sea-going vessels.*—Sea-going vessels brought into rivers and backwaters for any purpose other than to ply for hire shall anchor or lay up outside the fair way of the canal traffic in such place and manner as the Canal officer shall direct.

61. *Petroleum vessels.*—Notwithstanding anything contained in the foregoing rules:

(a) No vessel carrying petroleum in bulk on any canal shall be tied up within a quarter of a mile of any lock or wharf or within any other limits which may from time to time be fixed by the Executive Engineer in charge of the canal. The limits within which a vessel carrying petroleum in bulk may not, under this clause, be tied up shall be indicated by red posts.

Provided that any such vessel may, subject to rule (c), be tied up within a quarter of a mile of a lock for such period only as may be necessary to allow its arrival to be intimated to the Lock Superintendent and for the lock to be opened.

(b) From sunset to sunrise guarded red lights of approved pattern shall be displayed on the bow and stern of a vessel carrying petroleum in bulk on a canal and on that side of the vessel on which other vessels may pass it.

(c) A vessel carrying petroleum in bulk on a canal shall not enter a lock with another vessel nor remain with other vessels in the approach or tail channel of a lock. No

other vessel shall enter a lock or the approach or tail channel of a lock as long as there is a vessel carrying petroleum in bulk in such lock or approach or tail channel as the case may be.

(d) A vessel carrying petroleum in bulk will be passed through the lock in precedence of all other vessels.

(e) The Executive Engineer may, by the issue of a notice to the licensee or to the person in charge of a licensed vessel, prohibit a vessel carrying petroleum in bulk from plying whenever he is of opinion that there is the danger of the stranding of the said vessel on account of the shallowness of the water, or that there is danger on account of floods.

(f) Suitable moorings shall be carried on vessels carrying petroleum in bulk. Ropes may be used for moorings but mooring chains shall also be carried on board to be used in case of emergencies requiring such appliances.

(g) Clauses (a), (b), (c), (e) and (f) shall apply also to any vessels in which petroleum has been carried in bulk until the petroleum compartments have been thoroughly cleaned and certified by the officer appointed under rule 13 (4) of the rules made under the Petroleum Act, 1899 (VIII of 1899), to be quite free from petroleum and from petroleum gas.

62. *Motor vessels.*—For the purposes of the above rules motor vessels shall be classified as steamers.

(ii) The Public Works Department officers in charge are, under section 7 of the Canals and Public Ferries Act of 1890, empowered and required to stop such vessel at once from proceeding further, to remove all passengers or other persons from the vessel, and to isolate it as far as possible until it has been disinfected.

(iii) The Canal officers shall report the occurrence to the nearest Medical officer and shall, until the arrival of that officer, render every assistance in their power to subdue the outbreak by the distribution of medicines and disinfectants. After the arrival of the Medical officer they shall assist him to the best of their ability.

(iv) The vessel shall not be allowed to proceed without a written permit from the Medical officer.

64. *Carriage of lepers.*—No person suffering from leprosy shall be carried on board any vessel licensed to carry passengers unless

(i) arrangements have been made to the satisfaction of the Canal officer for the separation of the person and his attendants during the whole time that they remain on the vessel from other persons carried in the same vessel; and

(ii) any other special precautions which the Canal officer may consider necessary have been taken to prevent infection being communicated to other persons employed on or travelling in the vessel.

46 *Inspection of vessels other than steamers*.—The Canal officer in charge of a licensing station shall, from time to time, inspect all licensed vessels at such station to see if they are maintained in a proper state of repair and cleanliness and if their gear is in good condition, and may suspend the licences if the vessels are out of repair or unsafe or otherwise unfit for public use or for the carriage of goods as the case may be. So long as a licence is suspended, the vessel to which it relates shall not ply on any of the canals.

Certificate of inspection shall be issued in Form G appended to these rules. In the event of such deterioration of the machinery as may, in the opinion of the inspection officer, cause danger, the licence of the vessel shall be cancelled or suspended.

NOTE.—This rule is not applicable to boats fitted with detachable external motors.

51. *Limit of Canal officer's powers*.—A Canal officer may, on account of the infringement of any provision of the Act or any of the rules and regulations passed under it, suspend the licence of a vessel for not more than—

The published period of closure of the canal in which the lock or wharf specified in Form H, granted under rule 52, is situated shall not count as part of the period of suspension.

55. *Circulation of rules*.—A copy of the navigation rules and regulations in English or in the vernacular shall, at the time of registration or taking out a licence for every vessel other than a raft, be given to the owner or person in charge thereof, if he has not already got one, and his signature taken in the register of licences in token that he has received, or has already in his possession, a copy of the navigation rules and regulations.

In the case of private vessels intended for the personal use of the owners wharfage fees shall only be charged if the vessels make use of the wharf proper.

The wharf rules shall not apply to salt factories and salt channels already under the control of the Salt Department except the landing place at the salt depot at Madras. No private wharves or landing stages shall in future be constructed in connexion with lines of navigation without the previous sanction of Government.

29. *Wharf limits.*—No vessel shall load or unload on any part of a canal or channel within one mile on either side of a wharf, except by special permission in writing of the officer in charge of the division and on payment of the prescribed wharfage fees. These limits shall be defined by notice boards. In all cases where stone, bricks, tiles, lime, surki, sand or gravel are landed at, or shipped from a plot let to, a local board or municipality within technical wharf limits no wharfage fees will be levied provided there is no actual use of the wharf or of its approach roads maintained from canal funds. This concession will apply only to the Godavari and Kistna canals. In Masulipatam town, the Chintaguntapalem wharf limits shall be taken to extend to one mile on either side along the Masulipatam canal and also to the Basin channel, excluding the Boat basin. In Madras town the wharf limits shall be taken to be the municipal boundary on the north and Adyar south lock on the south and shall include the whole of the Cooum river up to Harris bridge. Within these limits no vessel shall load or unload at any places other than those described as landing places in the local wharf rules for the regulation of traffic published under rule 31 except with the permission of the Canal officer and payment of fees as aforesaid. Goods shall not be stacked on any towpath or on the canal side of any towpath under any circumstance, nor shall they be stacked on canal lands without special permission in writing from the Canal officer.

30. *Wharves which may be declared hereafter.*—Wharfage fees at the above rates shall also be levied at any wharf, which may hereafter be constructed, from the date on which it may be declared, by notification in the *Fort St. George Gazette* and in the Gazette of the district concerned, to be available for loading and unloading cargo and shipping and landing passengers.

31. *Regulation of traffic at wharves.*—The regulation of traffic at wharves shall be according to the rules framed in that behalf and approved by Government. Such rules shall be fixed to a notice board in a conspicuous place at each end of the wharf, and any infringement thereof shall be punished by suspension of the licence of the vessel contravening the rule or rules for a period not exceeding three months.

32. *Wharf tickets.*—Every person in charge of a vessel on which a wharfage fee is leviable shall, before making use of any of the wharves declared under section 6 of the Act, obtain from the wharf superintendent a wharf ticket in Form F attached to these rules. This ticket will permit the holder to make use of any of the wharves for a period not exceeding seven days from the date of issue. In Madras town wharf tickets will be issued by the Superintendent of the Madras Basin to vessels coming from the north and by the Superintendent of the Adyar south lock to vessels coming from the south. On the expiry of the ticket, the vessel must either (*a*) leave the wharf limits, (*b*) take out a fresh ticket or (*c*) pay demurrage as provided in rule 33. In Madras town within the limits described in rule 29 empty vessels may also be permitted to lie up for a certain period and at a certain place, or to pass through the limits of the Madras town wharf, without payment of wharfage or demurrage fees on the issue of a special permit in Form J signed by a Canal officer, provided that, during the period covered by the permit, the vessel does not load or unload goods nor ship or land passengers.

33. *Demurrage fee on vessels.*—On the expiry of a wharf ticket, it shall be optional to the owner of every vessel remaining at a wharf to pay a demurrage fee at the rate prescribed in the notification published under section 6 of the Act, instead of taking out a fresh wharf ticket. Provided that no demurrage fee shall be charged for any days, during which a vessel is not allowed to lie at the wharf.

34. *Demurrage fee on goods.*—Goods deposited for export at a wharf shall be removed, in case the goods are deposited in the covered portion of the wharf, within 48 hours from the time of deposit, and in case the goods are deposited in the uncovered portion of the wharf, within seven days from the date of deposit. Goods landed at a wharf shall in all cases be removed within 48 hours from the time of landing. If the said goods be not removed within such time, the consignor or the consignee, as the case may be, shall pay a demurrage fee at the rate prescribed in the notification published under section 6 of the Act. The said goods shall not be removed until the said fee is paid.

35. *Additional wharfage fee for test-weighing or test-measurement*.—Consignees of goods using the places reserved at wharves for test-measuring or test-weighing goods shall pay the additional wharfage fee prescribed for the purpose in the notification published under section 6 of the Act, and shall not allow the goods to remain at the reserved places longer than necessary for taking such test-measurement or test-weight.

The tender should be on the prescribed form obtainable from the Executive Engineer's office.

2. Tenders must be submitted in sealed covers, and should be addressed to the Executive Engineer, Godavari Western Division, the name of the tenderer and the name of the work being noted on the cover.

If the tender is made by an individual, it shall be signed with his full name and his address shall be given. If it is made by a firm, it shall be signed with the co-partnership name by a member of the firm, who shall also sign his own name, and the name and address of each member of the firm shall be given. If the tender is made by a corporation, it shall be signed by a duly authorized officer who shall produce with his tender, satisfactory evidence of his authorization. Such tendering corporation may be required, before the contract is executed, to furnish evidence of its corporate existence.

3. Each tenderer must pay, as earnest money, a sum of rupees three hundred only into the branch of the Imperial Bank of India or into the Government treasury or sub treasury within the jurisdiction of the Executive Engineer concerned to the credit of Revenue Deposits on behalf of the Executive Engineer of the Godavari Western Division and submit with his tender the challan endorsed accordingly. This earnest money will be refunded to the unsuccessful tenderer on application, after intimation is sent of rejection of the tender or at the expiration of two months from date of tender, whichever is earlier. The refund will be authorized by the Executive Engineer by suitable endorsement on the challan. The earnest money will not be received in cash or currency notes by the Public Works Department officers, save in exceptional cases, where there are no treasuries or banks within the jurisdiction of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date, on the back of all the currency notes given by him, whatever their denominations may be.

The earnest money will be retained in the case of the successful tenderer and will not carry any interest. It will be dealt with as provided in the tender.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender make a security deposit of rupees three hundred in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental form for the due fulfilment of the contract. The security deposit together with the earnest money and the amount withheld according to clause 69 of the Standard Preliminary Specification of the Madras Detailed Standard Specifications will be retained as security for the due fulfilment of the contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money.

5. The tenderer shall examine closely, the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein, and sign the Divisional office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender unit rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract, such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 3 p.m. on office days, in the office of the Executive Engineer, Godavari Western Division. A copy of the set of contract documents can also be had on payment of Rs. 5 for each set.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification." Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself about the quality and availability of materials. The names of quarries, lime etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in the tender notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply is site of work is begun. If the contractor, after examination of the source of materials defined in the Descriptive Specification Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, allow acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have monopolized the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of shipwrecks, tolls, etc.,

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) Test, inspection and rejection of defective materials and work.
(2) Carriage.
(3) Construction plant.
(4) Water and lighting.
(5) Cleaning up during progress and for delivery.
(6) Accidents.
(7) Delays.
(8) Particulars of payment.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deduction, or additions at the discretion of the Executive Engineer, Godavari Western Division, or as set forth in the conditions of contract. The tenderer will, however, base his lump sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas, and in sums of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract. This schedule accompanying the lump sum tender shall be written legibly and free from erasures, overwritings or conversions of figures. Corrections, where unavoidable, should be made by crossing out, initialing, dating and rewriting.

10 Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or as directed will be rejected. Rates or lump sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognized; and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12 The rates at which and the source from which certain particular materials shall be obtained by the contractor are given at the end of the schedule accompanying the tender form. Tenderers must accept the material at those prices, and shall quote their price for finished work accordingly. Notwithstanding any subsequent change in the market value for these materials, the charge to the contractor will remain as originally entered in the written contract. No cartage or incidental charges will be born by Government in connexion with this supply.

13. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of that programme will be the date on which the site (or premises) is handed over to the contractor.

Period after date of commencement.	Percentage of work completed (based on contract lump sum amount).
Three months	30 per cent.
Six months	75 "
Nine months	100 "

14. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorising others to receive payment on the contractor's behalf.

15. If further necessary information is required, the Executive Engineer of the Division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

16. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.
